

Guidelines for preparing presentation summaries for 2021 1st Japan Society for Science Education Mini-Conference

1. Guidelines for the content of presentation summaries

Each presentation summary is expected to contain the following elements:

- ◆ Research area: The research is conducted in the area where members of JSSE are concerned.
- ◆ Research theme and/or aim: Theme and/or aim of the research is clearly described.
- ◆ Research background: Background of the research is clearly described based on the findings of prior research studies, theoretical framework, and relevant practices.
- ◆ Method: Methodological design, procedures, and plans of the research study are appropriate and clearly described.
- ◆ Results: Results obtained in the research study are clearly described.
- ◆ Conclusion: Conclusion drawn from the research study is clearly described in the light of the stated aim.

2. Size and pages of presentation summaries

Presentation summaries are prepared in the A4 size paper up to 2 pages.

3. Format

Please use to the sample format by downloading the file in the following link (https://jsse.jp/wp-content/uploads/2021/08/An-Example-of-Format-for-2021_1st_JSSE_Mini-Conference_English_210802.docx). Both one-page and two-page presentation summaries are accepted.

4. Deadline for submission of presentation summaries

Saturday, September 18, 2021

5. Submission

Please register first through the online platform (<https://forms.office.com/r/8vBf8Ka8hU>). We will contact you by an e-mail about how to submit your presentation summary.

6. Other important notes

- (1) Please make sure the information you provided in the presentation summaries is correct and accurate.
- (2) The size limit of your presentation summary file is 10MB.
- (3) In case that your presentation summary includes an image of individual person(s), please make sure you obtained a permission from the person(s) to use it on the presentation summary.
